

# Aluminum Trench Shields

With over 35 years of experience, **American Shoring** has designed and manufactured quality trench shields for all levels of underground construction.

Our family of **Aluminum Trench Shields** is extensive and designed to maximize safety and production requirements under a wide range of soil conditions.

At **American Shoring**, handling considerations and budget guide lines are top priorities of our design team. Our recommendations have proved to be a cost benefit to municipalities and contractors.

From light duty to heavy duty high strength applications, our field experience matched with our professional manufacturing and support will ensure your best possible trench shoring solution.
