Training by the Best

Our goal at American Shoring Inc. is not only to be the best Trench Shoring Sales/Rental Company in the Industry, but to share our knowledge of the industry through safety awareness training. This training is designed for all persons associated with excavation safety and confined spaces.

At American Shoring Inc., we regard employee and customer safety a priority and offer Competent Person, Confined Space and OSHA 10 and OSHA 30 classes.

An effective safety program is the key to safety awareness which promotes not only safe practices but develops a progressive and productive organization, as well as avoidance of major OSHA fines. Please contact us for the next available training date and location. Thank you in advance for considering not only the safety of your employees, but also for the gift of returning them home to their families safely.
